PERSONAL SUMMARY

A competent and committed Full Stack Web Developer looking for a rewarding career in the Information Technology sector. Highly focused with a comprehensive knowledge of planning and developing the backend, deploying Web apps with caring of usability of a product. Possessing a proven track record of successfully completing projects from the concept through to design, testing and handover.

My main skill is developing back-end, stable, fast, scalable, high traffic and functional websites and applications using PHP. Other than that, I also do front-end JavaScript (and back-end with node.js!)

ACADEMIC QUALIFICATIONS

Information Technology
E-Gimnazija 2010 - 2014

WORK EXPERIENCE

ThePirateBay - (Piratbyrå)
BACKBONE ADMINISTRATOR June 2011 - May 2013

JungleCode
SENIOR BACKEND DEVELOPER October 2015 - Present

Currently gaining experience and building up valuable skills with a Junge Code company. By working on a portfolio of exciting web/mobile apps for their clients, who are based across the EU.

Duties:

- Maintaining and enhancing client software.
- Maintaining web apps and mobile for both new and existing clients.
- Testing apps functionality, identifying problems or bugs and fixing errors.
- Planning a core of huge & scalable backends for various purposes.
- Ensure app usability, Protecting API, WebSocket Communication ...
- Working on back-end technologies such as PHP, MySQL, Node.js.
- Involved in front-end design, site maintenance & email marketing campaigns.
- Pentesting the security of the company web servers.

KEY SKILLS AND COMPETENCIES

- Able to work in a fast paced environment & complete projects to schedule.
- Proven ability to design, code and build perfect web & mobile applications.
- Experience of creating sites, dashboards, API's and other backend collateral.
- Some project management skills and ability to manage own projects.
- Can multi-task effectively, pay attention to detail and meet tight deadlines.
- Able to work with diverse clients, either commercial or public sectors.
- Can communicate effectively with clients to understand their requirements.
- Ability to meet clients face to face and build long term relationships.
- Can explain technical issues clearly to non technical colleagues & clients.
- I also like solving problems which require using math, logic, brain and common sense !
